STEP 2 Promote & Sell

Promote your general store link through social media, text, and other methods. We recommend promoting multiple times during the sale! Encourage your sellers to promote from their individual stores, too.

Track your group's progress during the sale! You can create a friendly competition between sellers to help motivate them.

STEP 4 Get Ready for Delivery

On delivery day, sellers will receive an email message with details about the delivery. If they had online sales, it will also include their "Seller Report". This lists their supporters' contact and order information, so they can deliver their orders.
